# INTRODUCTION

## *Celebrating our 35 years of commitment, hard work and perseverance*

Long years of experience in the printing industry have witnessed the foundation of SAB® International in 1987 which is today a leading Lebanese based company with international standards.

As a leading manufacturer of diaries and corporate leather products, time sensitivity has been of high importance to us while dealing with our customers worldwide.

SAB® International considers its customers as the intangible asset that drives the company to excellence. As a result, and based on our customers' feedback, we are continuously adding new products to our product line in order to suit each country in the Middle East, Africa, Europe and the American Regions.

We are always committed in offering the best quality products by inputting the highest quality and friendly environmental raw material. The leather used in our products is tested and certified as completely harmless to the human environment. Moreover, the paper used in our diaries and notebooks is certified.

We at SAB® International do care for our environment; we do care about our customers.

DIARIES, NOTEBOOKS & LEATHER ITEMS

CHERRYNOTE DISTRIBUTOR

# OUR PROCESS

## 1. CHOOSE

- Specify the type of diary to fit your business needs.
- Choose the leather accessories.
- Choose the type of logo treatment

## 2. QUOTATION

Send us your specific type of diary with all specifications needed as per our catalog.

## 3. SEND ARTWORK

After approval, send us your logo in high resolution.  
File type approved:  
• Vector (Illustrator .ai or .pdf)  
• Pixel (Photoshop .psd)

## 4. DESIGN

The design will be implemented and options will be sent in 1-2 working days.

## 5. APPROVAL

After review of the mock up, send us your approval through an email.

## 6. PRODUCTION

Allocate 2-4 weeks for production.

## 7. DELIVERY

Delivery of products 1-2 days after finalizing the production process.

# REDUCING WASTE

Our collection of products are environmentally friendly with certified paper. Merging our environmentally friendly paper with our recycled and recyclable cover material, our valuable clients can now exclusively order a fully Go Green certified product.

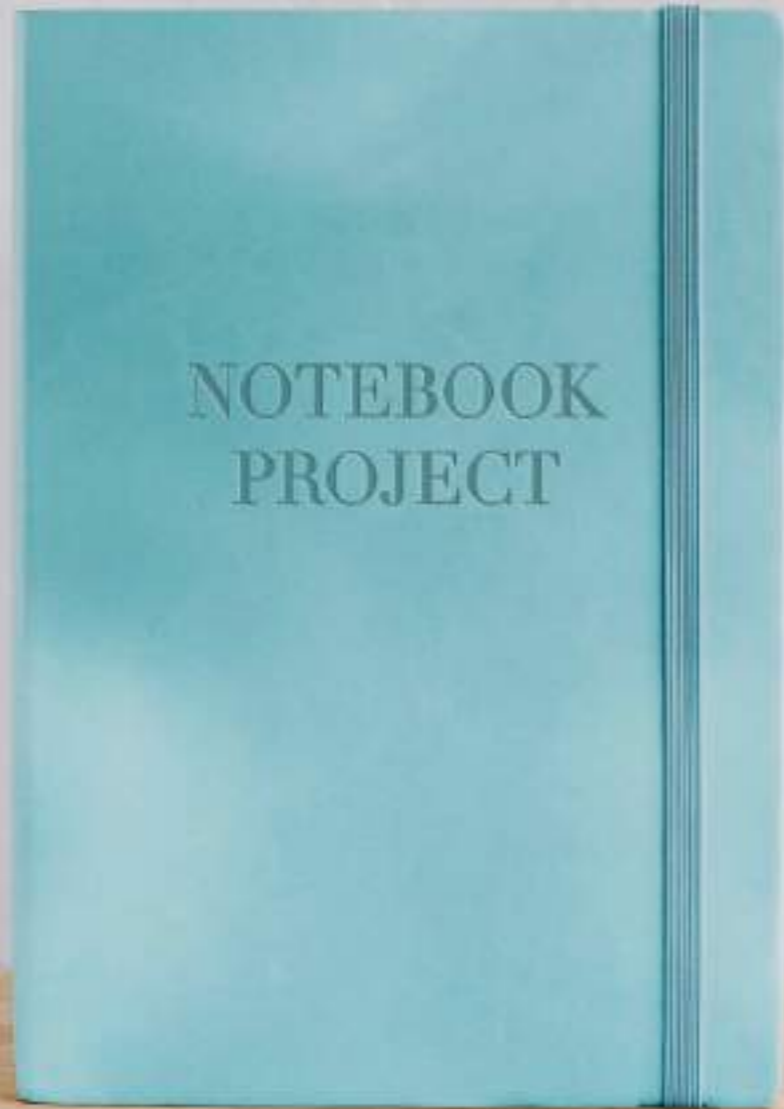

SAB® International has been the leading company within its scope of business to offer products printed on certified paper and offer complete Go Green diaries and notebooks to its valuable customers.

The paper used in this diary is environmentally friendly and from well managed sustainable sources to protect world's forests.

The leather used in this diary is certified and tested as completely not hazardous to human health.

# NOTEBOOK PROJECT

## WHY DO WE NEED NOTEBOOKS?

*Writing down notes helps you absorb and retain more information*

- **An opportunity for creativity**
- **Progress monitoring and grading**
- **Note-Taking by hand**  
Everyone needs to make notes whether in a conference, a meeting or a class, there is certainly no shortage of scribbling. Paper will always be around.
- **Fewer distractions**
- **An easily organised record of learning**  
This all great practice.
- **A place for the old and new**  
Paper planes never go out of fashion

# DOUBLE PROTECTION, FOR YOU AND THE ENVIRONMENT

## Take care of yourself even when you write:

the plastic we use for our Antibacterial collection prevents bacteria from settling on pen surfaces and passing from one hand to the other.

## Just pens, no bacteria.

We need to feel protected, every day and today even more so. Maxema Antibacterial is our new collection of antibacterial pens, able to combine design and safety.

Due to a special ISO 22196:2011 certified antimicrobial additive, the plastic releases silver ions that destroy up to 99,99% of the bacteria present on the pen.

## Why choose Maxema Antibacterial

### The plastic used is antibacterial

A special ISO 22196:2011 certified antimicrobial additive releases silver ions and prevents bacteria from settling on the surfaces of the pen.

### Bacteria: up to 99,99% less

Laboratory tests have shown that up to 99,99% of the bacteria on the pen are destroyed.

### We care about your health

Some bacteria can cause disease and infections: make your life still safer, even when you write.

TAKE IT  
SAFE,  
TAKE IT  
EASY.

## DOUBLE PROTECTION, FOR YOU AND THE ENVIRONMENT

Change is a choice and it depends on each of us. To change means to choose responsible, sustainable consumption that prefers quality to quantity, better still if the raw materials come from recovery chains.

### Who said good things don't last?

At Maxema, we do everything we can to make our pens live for as long as possible. A Maxema pen loves nature: the longer it lasts, the less it pollutes. And, since one life seemed too short for us, we have created a new line in recycled plastic, beautiful to look at and even more environmentally friendly. All our pens can be made of recycled plastic: choose your favourite model, inspired by the colours of Nature.

### Why use plastic only once when it can be turned into something new?

For our recycled plastic pens we use materials of European origin that are 100% derived from post-consumer products. When appropriately treated, these guarantee high quality plastics, certified and compliant with RoHS and REACH regulations.

CHOOSE  
BETTER  
MAKE IT  
LAST.
